

**THE ELEVENTH ANNUAL
EASTMAN FOUNDATION
DISTINGUISHED LECTURERS IN CATALYSIS**

EASTMAN

The results of insight™

**April 6, 2022
8:00 am to 10:30 am Pacific Daylight Time**

Register for free at:

https://berkeley.zoom.us/webinar/register/WN_orrdCzxzTG6eJwCrS0BgAA

Svetlana Mintova

Director of Research, CNRS, ENSICAEN, Normandy University, France
“Views on synthesis and application of nanozeolites with emphasis on defects sites”

Rajamani Gounder

Professor, Purdue University
“Mechanisms for Active Site Communication in Zeolites and Consequences for Catalysis”

Unni Olsbye

Professor, University of Oslo, Norway
“Studies of diffusion and acid-catalyzed reactions in zeolites”

Phillip Christopher

Professor, University of California, Santa Barbara
“Atomically Dispersed Precious Metal Catalysts: Structure-Function Relationships and Bifunctional Pair Sites”

*Generous support for this visiting lecturer series is provided
by the Eastman Foundation*
